Martin -- a desk statement that you may already have, but very useful if you do not.

Also included are Jim's various phone numbers. Jim is a wizard at this stuff, so please do not hesitate to call him if you need media advice while you are in Riverton.

Jim

Subject: statement

EPA has provided the state of Wyoming and Northern Arapaho and Eastern Shoshone tribal partners with EPA's monitoring data regarding the agency's ongoing analysis of ground water quality in the Pavillion, Wyoming area. This data, along with EPA's draft report and USGS data, will be submitted to an independent expert peer review panel later this year. EPA will also take public comment on its data and will be extending the comment period to January 15, 2013 to give stakeholders sufficient time to consider all data related to the Pavillion, Wyoming groundwater investigation.
